STATE OF THE TAUNTON: PARTNERSHIPS FOR PROGRESS OCTOBER 1, 2018

Fall River Heritage State Park, Fall River, MA

The Narragansett Bay Estuary Program and the Resilient Taunton Watershed Network are hosting the State of Taunton River Watershed Workshop spotlighting partnerships for progress. This event will inform attendees on major environmental factors that are affecting the Taunton River, its tributaries, surrounding lands, and ultimately Mount Hope Bay. Participants will hear from a range of professionals about clean water, changes to our land and waters from more people and more development, the successes and challenges to restoration and protection of our natural resources, and how rising seas affect our coasts. Join partners and meet new ones; exchange ideas and lessons learned; and help us protect and restore this place that is ours together.

Contact us if you are interested in sponsoring this watershed event, via email you will receive a form to complete and submit payment. NBEP has identified locally sourced food and drinks that your contribution can support. We are happy to answer any questions you may have, please call us at 401-633-0550 or 401-633-0551.
